SHE'S GOT YOUR BACK

```
  C                          G7        C
Elizabeth Warren, she's got your back,
                F                      G7
She'll put consumer protection on the right track
                    Dm                 C
She'll make the credit industry toe the line
          G7                           C
She's a friend of yours, she's a friend of mine.
           F    C
Oh, yes, oh, yes,
          G7                           C
She's a friend of yours, she's a friend of mine.
```

Elizabeth Warren, she's not afraid
She's the smartest appointment Obama's made
She looks so sweet but inside she's tough
And Wall Street knows she knows her stuff.
Oh, yes, oh, yes,
Wall Street knows she knows her stuff.

Your mortgage, your car loan, your credit card
She wants to hear if you've been hit hard
She'll carry the news to Washington
And she won't stop till the job is done.
Oh, yes, oh, yes,
She won't stop till the job is done.

The fine print isn't just hard to see
To figure it out you need a law degree
And Sherlock Holmes and a CPA
And they say it's your fault if you can't pay. . .

Main Street's hurting, and jobs are down
Your state is broke, and so's your town.
You know the corporations are to blame
Time to learn Elizabeth Warren's name. . .
