(snap)buy it. Look at it, think a-bout it, ask a-bout it, try it, and if you don't need it don't

(snap) buy it.

2. I took it to my friend's house to show what it could do,
It couldn't do much but at least it was new
My friend said, "Wow! I've been waiting to try one!"
But after five minutes she said, "I wouldn't buy one."
3. Another five minutes and the thing wouldn't start
Ten minutes more and it fell apart
My friend grabbed a piece and measured each dimension
Said, "It's just the part I need to finish my invention!"
4. She glued in the piece to the gadget she was making
It started with a rumbling and a whirring and a shaking
It climbed up the wall and made a whooping noise
And she'd made it herself out of seven broken toys
